Program

Details about the program schedule for the Canadian AI and Robots & Vision Conference 2025 will be provided on this page. The schedule will include information on keynote sessions, paper presentations, workshops, and special events. Please check back regularly for updates as we finalize the lineup of speakers and sessions. All program details will be shared here to help you plan your participation in the conference.

Conference on Robots & Vision

The main CRV conference runs from Tuesday, May 27th to Thursday, May 29th. Workshops on Monday, May 26th are hosted by Canadian AI.
